Innovative and results-oriented Senior Product Manager with deep expertise in blockchain, DeFi, and Web3 product development. Adept at leading cross-functional teams to deliver user-centric solutions, with a strong focus on driving user growth, enhancing user experience, and pioneering product innovation. Seeking a Principal Product Manager (Growth) role to leverage strategic product execution, industry trend insights, and a proven ability to optimize both functional excellence and scalable user engagement.

Professional Experience

Galxe | Senior Product Manager January 2025 – Present

- Led Galxe Earndrop project, enabling 10+ project partners to distribute ~100M tokens. Designed vesting, credentials set, and dashboard features, launching and iterating a seamless end-to-end airdrop system.
- Spearheaded Galxe Onchain Starboard, conducting in-depth competitive analysis of platforms like Kaito, Cookie3, and Nansen. Negotiated with 20+ projects to distribute 100M value contributor rewards.
- Enhanced Galxe Plus user experience by optimizing benefits allocation and expanding GG point usage scenarios, driving platform revenue growth.
- Improved user engagement by launching check-in tasks and designing an on-chain sybil prevention system, increasing authentic user participation and protecting user benefits.
- Built internal data monitoring dashboard using Posthog, enabling visualized tracking of platform data fluctuations.

Bitget Wallet | Senior Product Manager July 2024 – January 2025

- Led the redesign of the Staking platform, integrating third-party protocols and expanding POS staking options, increasing average daily staking from \$2,500 to \$50,000.
- Managed OTC/P2P integration with 10 third-party channels (e.g., Moonpay, Simplex), improving payment options and order success rates while ensuring accurate transaction fee reconciliation.

- Redesigned the Discover page, achieving over 20M unique visitors and enabling targeted Dapp issue resolution.
- Structured the NFT business unit to support Solana and Ton Networks for sending and receiving.
- Contributed to Bitget Exchange's strategic objectives through user education and engagement initiatives.

OKX | Product Manager March 2022 – July 2024

- Spearheaded the launch of X Layer, a ZK-powered Layer 2 network, overseeing conceptualization, infrastructure, and ecosystem development to bridge OKX and Ethereum communities.
- Designed and delivered Web3 protocol roadmaps, integrating wallets with multiple blockchain networks, ensuring compatibility, and conducting thorough testing.
- Organized the OKX Hackathon, fostering collaboration with Ventures and the Developer Community.
- Established a blockchain-based copyright protection platform, enhancing content security.
- Crafted project proposals for partnerships and new initiatives to drive platform growth.

People Online Network Co., Ltd. | Chairman's Assistant September 2019 – March 2022

- Assisted the Chairman in managing schedules, organizing critical documents, and coordinating internal/external communications, board meetings, and senior management conferences.
- Published chain announcements and collaborated with BD/VC teams for external negotiations.

Education

Chinese Academy of Social Sciences Postgraduate, Public Administration

- Majors: Public Policy Analysis, Organizational Behavior, Public Budgeting, Administrative Laws, Urban Planning

Xi'an International Studies University Undergraduate, English Culture/International Policy

- Majors: International Policy, Global Governance, English Literature, Linguistics, Cultural Studies, British History, Media and Communication

Key Projects

- OKX X Layer Chain: Designed mainnet launch and ecosystem development for a ZK-powered Layer 2 network.
- OKX OKTC Swap/NFT Market: Oversaw DEX platform development, optimizing user experience based on competitive research (Uniswap, Curve).
- OKX Wallet/AA Wallet/WaaS: Co-developed EOA and AA wallets, integrated B2B WaaS services.
- Bitget Wallet Staking/OTC: Redesigned staking and OTC/P2P functionalities, significantly boosting user engagement and transaction success.
- Galxe Earndrop: Delivered airdrop system with vesting and dashboard for 10+ projects, distributing ~100M tokens.
- Galxe Onchain Starboard: Led reward distribution strategy for 100M value contributor rewards across 20+ projects.

Skills

- Product Development, Go-to-Market Strategy, Project Management, Leadership
- Blockchain/DeFi Expertise: Proficient in Web3 protocols, wallet integration, and trends (e.g., Eigenlayer, Layer2 tokens)
- Tools: Jira, Confluence, Gitlab, Figma, Amplitude, Posthog
- Languages: Fluent in English (reading, writing, listening, speaking)
- Industry Research: Deep understanding of top 20 public chains (Defilama) and emerging trends
