Partnerships and growth lead with a track record of scaling Web3 platforms through co-marketing execution, GTM strategy, and end-to-end partner management.

Experienced in driving user acquisition across trading, infrastructure, and content ecosystems, with 60+ partner activations and measurable outcomes in conversion, retention, and ROI.

WORK EXPERIENCE

Feb. 2024~ Present

MapleStory Universe, Nexon Universe

- Business Development & Partnerships Manager

MapleStory Universe (MSU) is the flagship Web3 initiative from Nexon, a top global game publisher, building an NFT-based ecosystem around the iconic MapleStory IP.

Major Achievements

- Spearheaded partnership campaigns with OpenSea, Galxe, and Kaito, acquiring 600K+ users and generating 45M+ community engagements.
- Managed and executed 35+ co-marketing and IP partnerships with brands including Samsung Wallet, Bandai Namco, Azuki, and Pudgy Penguin.
- Negotiated GTM plans and partnership terms with infra providers such as Avalanche and Chainlink, accelerating deployment readiness by 25%.
- Led 40+ KOL activations across Twitter, Telegram, and YouTube, generating 2M+ impressions and boosting campaign ROI by 3x.
- Led CRM workflows and community activations that contributed to 480K+ user acquisition, reduced CAC by 22%, and improved engagement.
- Designed onboarding, referral, and rewards programs, increasing Web2 to Web3 conversion by 32% and 7-day retention by 35%.
- Collaborated cross-functionally with product, marketing, and legal teams on co-marketing agreements and IP usage rights, reducing time-to-launch by 25%.
- Represented the project at 15+ AMAs and offline events, generating 200K+ impressions and sustaining visibility across key partners.

Jul. 2022 ~ Jan.2024

Lambda256, Dunamu

- Growth Team Lead

Lambda256 is the Web3 infrastructure arm of Dunamu (Upbit), and one of Korea's largest providers of STO and SaaS-based blockchain infrastructure.

Major Achievements

- Led GTM and growth for Nodit, a Web3 infrastructure platform (API/SDK), securing 12+ trial customers and generating 7,000+ MQLs with a 35% conversion rate across Korea, Japan, and SEA.
- Closed 20+ strategic partnerships, including Universal Studios and Woori Bank, and managed technical onboarding to support their first Web3 service launches.
- Delivered SDK/API onboarding for strategic partners, ensuring long-term product adoption and technical scalability.
- Designed and launched 8 grant and referral programs across APAC, accelerating developer and SMB partner acquisition by 42%.
- Coordinated 30+ offline initiatives including hackathons, workshops, and meetups, generating 7,000+ qualified leads and expanding the partner base by 38%.
- Built and scaled a Web3 ambassador program that onboarded 50 advocates to localize content and grow developer communities across key markets.
- Optimized user funnel using Google Analytics and CRM tools (HubSpot/ActiveCampaign), increasing user retention by 28% and MAU by 24%.
- Produced SEO-driven content and product storytelling, increasing site traffic by 20% and generated 1,000+ SDK signups from organic channels.
